PROFESSIONAL SUMMARY

Java Backend Developer with 4.5+ years of experience designing, developing, and enhancing enterprise back-end applications using Java and Spring Boot. Experienced in building RESTful APIs and microservices, modernizing legacy applications, automating business processes, resolving production issues, and delivering secure, scalable solutions in Agile/Scrum environments.

TECHNICAL SKILLS

- **Languages:** Java 17, SQL
- **Backend Technologies:** Spring Boot 3.x, Spring MVC, JPA/Hibernate, REST APIs, Microservices, Maven
- **Databases:** PostgreSQL, Oracle SQL
- **Cloud & DevOps:** AWS (S3, Secrets Manager, IAM), Docker, Jenkins, GitLab CI/CD
- **Testing & Security:** JUnit, Unit Testing, Static Application Security Testing (SAST), Code Vulnerability Checks (CVC), Okta SSO, OAuth 2.0
- **Tools:** Git, Postman, Swagger UI, OpenAPI, Kibana, Splunk, JIRA, Claude CLI, GitHub Copilot

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS)

Feb 2022 – Present

Systems Engineer – Java Backend Developer

Pune, Maharashtra

- Led the migration of applications from **Java 8 Spring MVC to Java 17 and Spring Boot 3.x**, modernizing the technology stack, improving maintainability, and contributing to a **30% improvement in application performance**.
- Designed and implemented secure SSO authentication and authorization using **OAuth 2.0, and OpenID Connect (OIDC)** for ADD Safety application.
- Developed and enhanced **RESTful APIs** using Java, Spring Boot, Spring Data JPA, and Hibernate, focusing on scalable and reliable backend services.
- Built and integrated UI components and services using **Angular and Vue.js**, integrating frontend functionality with Spring Boot backend services and reducing frontend development effort by **25%**.
- Actively participated in **Agile/Scrum** ceremonies including daily stand-ups, sprint planning, backlog refinement, and feature delivery.
- Investigated and resolved **UAT and production issues** using Kibana and Splunk, performed root-cause analysis (RCA), and maintained SLA compliance.
- Managed application deployments through **GitLab and Jenkins CI/CD pipelines**, supporting smooth releases and environment stability.

PROJECTS

Tryg Leap – House, Content & Pet Products

TCS

Microservices-based insurance platform for digital transformation of home, content/cabin, and pet insurance products.

- Developed and maintained **RESTful APIs** for Home, Content, and Pet insurance products using **Java 17 and Spring Boot**.
- Automated the manual monthly insurance sales reporting process by implementing **Spring Scheduler and email automation** within a Spring Boot microservice, generating broker-specific Excel reports and automatically distributing them to the business team.
- Developed and integrated **Vue.js UI components** with Spring Boot backend for the franchise-line internal application and integrated diverse applications using **IBM Integration Bus (IIB)** for efficient data retrieval, transformation, and system communication.
- Created and maintained **feature and technical documentation in Confluence**, documenting implementation details, technical and feature details to support knowledge sharing and team collaboration.

ADD Safety Platform

TCS

AI-enabled pharmacovigilance platform designed to automate and streamline safety-case processing in life sciences.

- Integrated the application with **Okta SSO and Microsoft Azure AD** to support multiple customer identity providers, enabling authentication for customers using either Okta or Azure AD.
- Managed user access and user creation workflows in the okta identity platform, ensuring appropriate authentication

and access management for application users.

- Designed and developed **RESTful APIs** using Spring Boot and Spring Data JPA for modules including File Case Monitor, Ontology Management, Batch Monitor, and Reconciliation.
- Performed **Static Application Security Testing (SAST)** and **Code Vulnerability Checks (CVC)** on Angular and Spring Boot applications, ensuring adherence to secure coding and compliance requirements.

EDUCATION

Savitribai Phule Pune University

MSc in Computer Science – CGPA: 9.3/10

Jun 2019 – Aug 2021

Pune, Maharashtra

Savitribai Phule Pune University

BSc in Computer Science – 72.78%

Jun 2016 – May 2019

Pune, Maharashtra

CERTIFICATIONS & LEARNING

- **TCS** – Spring Boot and Microservices Architecture
- **TCS** – AWS Technical & Cloud Essentials

AWARDS & RECOGNITION

- **Star of the Month** – Awarded 4 times at TCS for exceptional performance, code quality, and timely delivery.
- **Contextual Master Award** – Tata Consultancy Services.
- **Talent Development – Elevate Wings Award** – Tata Consultancy Services.
