PROFESSIONAL SUMMARY

Java Backend Developer with 4 years of experience in BFSI Insurance and Life Science domains. Strong expertise in Java, Spring Boot, REST APIs, PostgreSQL, and experience working with Microservices and Monolithic architectures. Proficient in Angular and Vue 3 with a primary focus on backend development, production support, and Agile delivery. Committed to writing clean, efficient code, optimizing application performance, and continuously upgrading skills to align with evolving technology trends.

TECHNICAL SKILLS

Languages & Frameworks: Java, Spring Boot, Spring Data JPA, REST APIs, Microservices, Angular, Vue 3

Databases: PostgreSQL, Oracle SQL

Cloud & DevOps: AWS (S3, Secrets Manager, IAM), CI/CD (Jenkins, GitLab), Docker

Testing & Security: SAST, Code Vulnerability Checks (CVC), Unit Testing, JUnit

Tools & Platforms: Git, Maven, Postman, Swagger UI, Open API, Kibana, Splunk, JIRA, IntelliJ IDEA

Methodologies: Agile (Scrum), Sprint Planning, UAT Support

PROFESSIONAL EXPERIENCE

Systems Engineer — Java Full Stack Developer | Tata Consultancy Services Feb 2022 – Present

Project: TRYG Leap Norway — Home, Content & Pet Products (Spring Boot, Vue 3, Microservices, Oracle, GitLab CI/CD)

- Developed and maintained RESTful APIs for Home, Content, and Pet insurance products using Java/Spring Boot and Open API/Swagger, improving system integration efficiency by 30%.
- Built Vue 3 UI components and integrated them seamlessly with Spring Boot backend services for the Franchise line application.
- Participated in Agile ceremonies (Sprint Planning, Reviews, Retrospectives, Backlog Refinements) across the sprints, consistently delivering features and user stories on time.
- Managed end-to-end deployments for microservices using GitLab CI/CD pipelines; resolved UAT & production issues using Kibana and Splunk for root-cause analysis, maintaining SLA compliance.

Project: TCS ADD Safety Platform (Spring Boot, Spring Data JPA, Angular 9, PostgreSQL, Jenkins CI/CD)

- Designed and implemented RESTful APIs across multiple ADD application modules: File Case Monitor, Ontology Management, Analytics, and Batch Monitor.
- Built 10+ reusable Angular components and services for analytics and ontology modules, reducing frontend development effort by 25%.
- Migrated Spring Boot applications to newer versions ensuring compatibility, improved performance, and security fixes.
- Investigated and resolved UAT & production issues by performing root cause analysis (RCA), analysing logs and system behaviour.

EDUCATION

MSc in Computer Science

Jun 2019 – Aug 2021

Savitribai Phule Pune University, Pune | CGPA: 9.3 / 10

BSc in Computer Science

Jun 2016 – May 2019

Savitribai Phule Pune University, Pune | 72.78%

CERTIFICATIONS & LEARNING

- TCS: Spring Boot & Microservices Architecture
- TCS: Secure Coding Training
- AWS: Technical & Cloud Essentials

AWARDS & RECOGNITION

- **Star of the Month** — Awarded 3 times at Tata Consultancy Services for exceptional performance, code quality, and timely delivery
- **Contextual Master Award** — Tata Consultancy Services
- **Talent Development Elevate Wings Award** — Tata Consultancy Services
